
Amsoil 20w/50 Advanced Motorcycle Oil and Filters

Posted by bglassman - 2008/06/23 09:32

I am selling 5 quarts of Amsoil Advanced Synthetic Motorcycle Oil in 20w/50 that I have available. This is perfect for summer riding and enough for a complete change with almost a quart or more left over for those boxers that need a little now and then..

I am selling them all at once for 33.00 .. This is below wholesale pricing from Amsoil direct and less then 50% of the retail price that motorcycle shops are charging for this oil.

I also have 2 amsoil high tech oil filters for the K1200LT, EAOM122-EA . Available. I'll sell them both for 25.00 ..
