
Hilarious Video

Please, GS riders, do not take offense at this video if you should view it as I don't mean anything by it; it is just plain funny. It is a spoof on the last days of Hitler while he is in the Berlin bunker. It is from some German movie about Hitlers last days and has English sub-titles, which is the whole gist of the video. There is some strong language also, so be forewarned. I thought it was hilarious when I first saw it.

OK, that was actually pretty funny. Some of those same arguments went through my head (Ewan and Charley) when I bought my GS a couple years ago.

Now I wouldn't trade my @\$^%# tractor for anything.

That was a funny video!

I just picked up my "tractor" (1998 75th AE), last Friday, tagged it Tuesday and rode it up 25 across 80 and back down 287 yesterday (Wednesday) to "plow" the soot out of the engine, runs better now.

I love it!!
