## getting my R90s back to work

Posted by VINCENNTWIN - 2008/03/01 17:55

---

Hi Folks .

I am new to the club ,in fact this is my first post , Hoping to get my old R90s painted anyone know a good local Denver painter that can do a good job on the orange paint.

Thanks

Peter

I had a bike painted at an autobody shop in Englewood on Broadway a few years ago. The place is located near Broadway and Oxford on the east side of the Broadway. I delivered the parts and they did a great job and didn't charge a lot. Very good quality, too. It doesn't look like much of a place from the front, but inside they were painting some high end vehicles so I decided to trust them with my Honda Pacific Coast. They also showed me a recent Harley paint job complete with flames.

I think this is the place:

Auto Body Paint Center  
4050 S Broadway  
Englewood, CO 80113-4631  
(303) 762-1040

Peter;

I have a 1984 R100RS, great machines, there are several "Airheads" in the club. Any of us will be glad to help if you need anything.
